My Fellow Dental Professional,

I would like to introduce myself and let you know that I will be available to offer my temporary services as a Registered Dental Hygienist beginning the week of November 18, 2024.

I have been working full-time as a dental hygienist for nearly fifteen years. Although most of that time has been spent in permanent positions, I have also done my fair share of temping over the years. I find that I often thrive in chaos, and revel in the peaceful moments in between.

I enjoy administering local anesthesia and I am highly skilled in the treatment of periodontal disease. If there are any patients scheduled for SRP while I am on assignment with your office, I would be happy to complete their treatment, as long as you are comfortable with me doing so.

Having spent a decade in customer service prior to my return to college, I am well equipped to handle difficult patients and those resistant to treatment. I view every encounter as an opportunity to build a relationship and provide my patients with the knowledge and appreciation needed for the best possible outcome. I treat every patient like an old friend and often hear comments like “well, that was surprisingly fun!”

I am thankful for each opportunity I have been given, and I have learned a great deal from each position I have held. I am excited about this new chapter of my career and look forward to establishing myself as your favorite temporary dental hygienist!

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Amanda McHenry', with a long horizontal flourish extending to the right.

Amanda McHenry, R.D.H.
